SUPPLEMENTARY INFORMATION:

Note: In March 2003, the agricultural import and entry inspection activities that had been performed by employees of the Animal and Plant Health Inspection Service (APHIS) were transferred to the Department of Homeland Security (DHS). The regulations cited in this notice have not yet been updated to reflect this change, so in the interests of consistency with those regulations this notice continues to refer to "APHIS employees" and services provided or work performed by APHIS employees. Readers should be aware, however, that DHS personnel are currently performing certain of the agricultural import and entry inspection activities discussed in this notice for which overtime charges or user fees are applicable.

Reimbursable Overtime Charges

The regulations in 7 CFR chapter III and 9 CFR chapter I, subchapters D and G, require inspection, laboratory testing, certification, or quarantine of certain animals, poultry, animal byproducts, germ plasm, organisms, vectors, plants, plant products, or other regulated commodities or articles intended for importation into, or exportation from, the United States. With some exceptions, when these services must be provided by an APHIS employee on a Sunday or on a holiday, or at any other time outside the APHIS employee's regular duty hours, the Government charges an hourly overtime fee for the services in accordance with 7 CFR part 354 and 9 CFR part 97.

In a final rule published in the **Federal Register** on July 25, 2002 (67 FR 48519-48525, Docket No. 00-087-2), and effective August 11, 2002, we established, for the fiscal years 2002 through 2006 and beyond, reimbursable overtime rates for Sunday, holiday, or other overtime work performed by APHIS employees for any person, firm, or corporation having ownership, custody, or control of animals, poultry, animal byproducts, germ plasm, organisms, vectors, plants, plant products, or other regulated commodities or articles subject to inspection, laboratory testing, certification, or quarantine. In this document we are providing notice to the

public of the reimbursable overtime fees for fiscal year 2005 (October 1, 2004, through September 30, 2005).

Under the regulations in 7 CFR 354.1(a) and 9 CFR 97.1(a), any person, firm, or corporation having ownership, custody or control of plants, plant products, animals, animal byproducts, or other commodities or articles subject to inspection, laboratory testing, certification, or quarantine who requires the services of an APHIS employee on a Sunday or holiday, or at any other time outside the regular tour of duty of that employee, shall sufficiently in advance of the period of Sunday, holiday, or overtime service request the APHIS inspector in charge to furnish the service during the overtime or Sunday or holiday period, and shall, for fiscal year 2005, pay the Government at the rate listed in the following table:

OVERTIME FOR INSPECTION, LABORATORY TESTING, CERTIFICATION, OR QUARANTINE OF PLANTS, PLANT PRODUCTS, ANIMALS, ANIMAL PRODUCTS, OR OTHER REGULATED COMMODITIES

Outside the employee's normal tour of duty	Overtime rates (per hour) Oct. 1, 2004-Sept. 30, 2005
Monday through Saturday and holidays.	\$49.00
Sundays	65.00

As specified in 7 CFR 354.1(a)(1)(iii) and 9 CFR 97.1(a)(3), the overtime rates to be charged in fiscal year 2005 to owners and operators of aircraft at airports of entry or other places of inspection as a consequence of the operation of the aircraft, for work performed outside of the regularly established hours of service will be as follows:

OVERTIME FOR COMMERCIAL AIRLINE INSPECTION SERVICES¹

Outside the employee's normal tour of duty	Overtime rates (per hour) Oct. 1, 2004-Sept. 30, 2005
Monday through Saturday and holidays.	\$40.00

OVERTIME FOR COMMERCIAL AIRLINE INSPECTION SERVICES¹—Continued

Outside the employee's normal tour of duty	Overtime rates (per hour) Oct. 1, 2004–Sept. 30, 2005
Sundays	53.00

¹These charges exclude administrative overhead costs.

A minimum charge of 2 hours shall be made for any Sunday or holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or her, or which is performed by an employee on his or her regular workday beginning either at least 1 hour before his or her scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of Sunday or holiday or unscheduled overtime work to which the 2-hour minimum charge provision applies may include a commuted traveltime period (see 7 CFR 354.1(a)(2) and 9 CFR 97.1(b)).

Veterinary Diagnostic Services User Fees

User fees to reimburse APHIS for the costs of providing veterinary diagnostic services are contained in 9 CFR part 130 (referred to below as the regulations). These user fees are authorized by section 2509(c) of the Food, Agriculture, Conservation and Trade Act of 1990, as amended (21 U.S.C. 136a), which provides that the Secretary of Agriculture may, among other things, prescribe regulations and collect fees to recover the costs of veterinary diagnostics relating to the control and eradication of communicable disease of livestock or poultry within the United States.

In a final rule published in the **Federal Register** on May 6, 2004 (68 FR 25305–25312, Docket No. 00–024–2), and effective June 7, 2004, we established, for the fiscal years 2004 through 2007 and beyond, user fees for

certain veterinary diagnostic services, including certain diagnostic tests, reagents, and other veterinary diagnostic materials and services. Veterinary diagnostics is the work performed in a laboratory to determine if a disease-causing organism or chemical agent is present in body tissues or cells and, if so, to identify those organisms or agents. Services in this category include: (1) Performing identification, serology, and pathobiology tests and providing diagnostic reagents and other veterinary diagnostic materials and services at the National Veterinary Services Laboratories (NVSL) in Ames, IA; and (2) performing laboratory tests and providing diagnostic reagents and other veterinary diagnostic materials and services at the NVSL Foreign Animal Disease Diagnostic Laboratory (NVSL FADDL) in Greenport, NY.

APHIS veterinary diagnostic user fees fall into six categories:

- (1) Laboratory tests, reagents, and other veterinary diagnostic services performed at NVSL FADDL;
- (2) Laboratory tests performed as part of isolation and identification testing at NVSL in Ames;
- (3) Laboratory tests performed as part of serology testing at NVSL in Ames;
- (4) Laboratory tests performed at the pathobiology laboratory at NVSL in Ames;
- (5) Diagnostic reagents produced at NVSL in Ames or other authorized sites; and
- (6) Other veterinary diagnostic services or materials provided at NVSL in Ames.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Forest Service

Pattee Canyon Weed Management Project, Lolo National Forest, Missoula County, MT

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare an environmental impact statement (EIS).

SUMMARY: The Missoula Ranger District of the Lolo National Forest is proposing activities to control invasive weeds on approximately 2,500 acres of land near Missoula, Montana. The purpose of the project is to enhance and maintain desirable native vegetation and to maintain big-game winter range.

Proposed actions include aerial and ground application of herbicides, controlled release of approved biological control agents, and revegetation by seeding. These activities will be conducted along with ongoing programs to prevent invasive species and to educate the public.

Preliminary issues identified include the effectiveness of the proposed treatments, potential risks to human health and safety associated with herbicides, and the potential adverse effects of herbicides on native vegetation.

DATES: Comments about this proposal should be received within 45 days of the publication of this notice.

ADDRESSES: The USDA Forest Service is the lead agency for preparing this EIS. The Forest Service will consult with the U.S. Fish and Wildlife Service when making this decision. The responsible official is Maggie Pittman, Acting District Ranger, Missoula Ranger District, Lolo National Forest, Building 24A, Fort Missoula, Missoula, MT 59804.

FOR FURTHER INFORMATION CONTACT: Andy Kulla, Resource Assistant, Missoula Ranger District, at (406) 329-3962, or e-mail akulla@fs.fed.us. Please

direct written comments to Maggie Pittman at Missoula Ranger District, Building 24A, Fort Missoula, Missoula, MT 59804, or e-mail mpittman@fs.fed.us.

SUPPLEMENTARY INFORMATION: Most of the lands proposed for treatment were recently acquired by the federal government. Before the government acquired these lands, registered herbicides were periodically applied to them by air to control invasive species. These applications were partially effective, so the lands have retained a large component of native vegetation. However, within the project area are expanding populations of leafy spurge, Dalmatian toadflax, spotted knapweed, sulfur cinquefoil, Canada thistle, musk thistle, cheat grass and other invasive species. Without active control measures, these invasive weed populations will expand further, replacing native vegetation and decreasing the suitability of the lands as big game winter range.

In 2001, the Lolo National Forest prepared and implemented a Big Game Winter Range and Burned Area Weed Management Project. That project authorized similar control treatments on ecologically equivalent lands across 21,750 acres. Treatments authorized by that EIS have been monitored to determine their effectiveness in controlling invasive species and their effects on other resources. This EIS will rely on the effects analyses disclosed in that EIS. This project will also rely on monitoring results to support disclosures of site-specific effects anticipated.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft EIS's must structure their participation in the environmental review of the proposal so that it is meaningful and alerts the agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Secondly, environmental objections that could be raised at the draft EIS stage but are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir.

1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that people interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns about the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.)

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in December 2004. At that time, the EPA will publish a Notice of Availability of the draft EIS in the **Federal Register**. The comment period on the draft EIS will be 45 days from the date of the EPA's notice of availability in the **Federal Register**.

The final EIS is scheduled to be completed by February 2005.

Dated: August 24, 2004.

Acting District Ranger, Missoula District, Lolo National Forest.
