

National Technology Transfer and Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 ("NTTAA"), Public Law. No. 104-113, section 12(d) (15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This action does not involve technical standards. Therefore, EPA did not consider the use of any voluntary consensus standards.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-6717-9]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to delete the 3.45 acres of the Motor Wheel Disposal Superfund site (Site) from the NPL and requests public comment on this action. The NPL constitutes appendix B of 40 CFR part 300 of the National and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended. EPA has determined that this portion of the Site currently poses no significant threat to public health or the environment, as defined by CERCLA, and therefore, further remedial measures under CERCLA are not appropriate. We are publishing this proposed rule without prior notification because the Agency views this as a noncontroversial revision and anticipates no dissenting comments. A detailed rationale for this approval is set forth in the direct final rule. If no dissenting comments are received, the deletion will become effective. If EPA receives dissenting comments, the direct final action will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a

second comment period. Any parties interested in commenting should do so at this time.

DATES: Comments concerning this Action must be received by July 24, 2000.

ADDRESSES: Comments may be mailed to Heather Nelson, Remedial Project Manager, or Gladys Beard, Associate Remedial Project Manager, U.S. Environmental Protection Agency (SR-6J), 77 W. Jackson, Chicago, IL 60604.
