Abstract: Section 709(c) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have been or are being committed and to make reports therefrom as required by the EEOC. Accordingly, the EEOC has issued regulations which set forth the reporting requirements for various kinds of employers. State and local governments with 100 or more full-time employees have been required to submit EEO-4 reports since 1973 (biennially in odd-numbered years since 1993). The individual reports are confidential.

EEO-4 data are used by the EEOC to investigate charges of discrimination against state and local governments and to provide information on the employment status of minorities and women. The data are shared with several other Federal government agencies. Pursuant to section 709(d) of Title VII of the Civil Rights Act of 1964, as amended, EEO-4 data are also shared with eighty-six State and Local Fair Employment Practices Agencies (FEPAs). Aggregated data are also used by researchers and the general public.

Burden Statement: The estimated number of respondents included in the EEO-4 survey is 5,000 state and local governments. The estimated number of responses per respondent is approximately two (2) EEO-4 reports and the reporting burden averages between 1 and 5 hours per response, including the time needed to review instructions, search existing data sources, gather and maintain the data, and complete and review the collection of information. The total number of responses is thus 10,000 reports while the total burden is estimated to be

40,000 hours, including record keeping burden. In order to help reduce burden, respondents are encouraged to report data on electronic media such as diskettes.
