

Electric arc furnace means any furnace wherein electrical energy is converted to heat energy by transmission of current between electrodes partially submerged in the furnace charge.

Electrometallurgical operations means the use of electric and electrolytic processes to purify metals or reduce metallic compounds to metals.

Fugitive emissions means any pollutant released to the atmosphere that is not discharged through a ventilation system that is specifically designed to capture pollutants at the

source, convey them through ductwork, and exhausts them from a control device. Fugitive emissions include pollutants released to the atmosphere through windows, doors, vents, or other building openings. Fugitive emissions also include pollutants released to the atmosphere through other general building ventilation or exhaust systems not specifically designed to capture pollutants at the source.

to eliminate air being drawn in under the cover.

Tapping means the removal of product from the EAF or other reaction vessel under normal operating conditions, such as removal of metal under normal pressure and movement by gravity down the spout into the ladle.

Withdrawal of Federal Antidegradation Policy for All Waters of the United States Within the Commonwealth of Pennsylvania

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to withdraw the federal antidegradation policy for all waters of the United States within the Commonwealth of Pennsylvania. We will withdraw the federal antidegradation policy to allow Pennsylvania to implement its own antidegradation policy. Pennsylvania has adequately demonstrated that its antidegradation policy protects all waters of the United States within the Commonwealth at a level consistent with the federal requirements. Therefore, the federal antidegradation policy is redundant. In the “Rules and

Regulations” section of this **Federal Register**, we are withdrawing the federal antidegradation policy for waters within the Commonwealth of Pennsylvania as a direct final rule without a prior proposed rule. If we received no adverse comment, we will not take further action on this proposed rule.

DATES: Written comments must be received by October 15, 2008.

ADDRESSES: Submit your comments, identified by Docket Id. No. EPA–HQ–OW–2007–0093, by mail to: Water Docket, USEPA, Mailcode: 2822T, 1200 Pennsylvania Ave., NW., Washington, DC 20460. Comments may also be submitted electronically or through hand delivery/courier by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the rules section of this **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Caroline Whitehead at EPA Headquarters, Office of Water, 1200 Pennsylvania Ave, NW, Mail Code 4305T, Washington, DC 20460 (telephone: 202–566–2907, fax: 202–566–0409 or e-mail: whitehead.caroline@epa.gov) or Denise Hakowski at EPA Region 3, 1650 Arch Street, Mail Code 3WP30, Philadelphia,

PA 19103 (telephone: 215–814–5726, fax: 215–814–2318 or e-mail: hakowski.denise@epa.gov).

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final rule that is located in the “Rules and Regulations” section of this **Federal Register** publication.

I. Why Is EPA Issuing This Proposed Rule?

This document proposes to take action on withdrawing the federal antidegradation policy for the Commonwealth of Pennsylvania because Pennsylvania has adequately demonstrated that its antidegradation policy protects all waters of the United States at a level consistent with the federal requirements. We have published a direct final rule withdrawing the federal antidegradation policy for the Commonwealth of Pennsylvania in the “Rules and Regulations” section of this **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this withdrawal in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposal rule. If we receive adverse comment, we will withdraw the direct final rule and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule.

We will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. For the various statutes and executive orders that require findings for rulemaking, EPA incorporates the findings from the direct final rulemaking into this companion notice for the purpose of providing public notice and opportunity for comment. For further information, please see the information provided in the **ADDRESSES** section of this document.
