

provisions of EPA's previous delegation actions. Virginia committed to enforcing the federal standards in conformance with the terms of EPA's previous delegations of authority. Virginia made only allowed wording changes.

Virginia provided copies of its revised regulations specifying the NESHAP and NSPS which Virginia has adopted by reference. These revised regulations are entitled 9 VAC 5-50 "New and Modified Stationary Sources," and 9 VAC 5-60 "Hazardous Air Pollutant Sources." These revised regulations have an effective date of February 15, 2012.

Accordingly, EPA acknowledges that Virginia now has the authority, as provided for under the terms of EPA's previous delegation actions, to implement and enforce the NESHAP and NSPS standards which Virginia has adopted by reference in Virginia's revised regulations 9 VAC 5-50 and 9 VAC 5-60, both effective on February 15, 2012.

Please note that on December 19, 2008, in *Sierra Club v. EPA*,² the United States Court of Appeals for the District of Columbia Circuit vacated certain provisions of the General Provisions of 40 CFR Part 63 relating to exemptions for startup, shutdown, and malfunction (SSM). On October 16, 2009, the Court issued a mandate vacating these SSM exemption provisions, which are found at 40 CFR § 63.6(f)(1) and (h)(1).

Accordingly, EPA no longer allows sources the SSM exemption as provided for in the vacated provisions at 40 CFR § 63.6(f)(1) and (h)(1), even though EPA has not yet formally removed these SSM exemption provisions from the General Provisions of 40 CFR Part 63. Because Virginia incorporated 40 CFR Part 63 by reference, Virginia should also no longer allow sources to use the former SSM exemption from the General Provisions of 40 CFR Part 63 due to the Court's ruling in *Sierra Club vs. EPA*.

EPA appreciates Virginia's continuing NESHAP and NSPS enforcement efforts, and also Virginia's decision to take automatic delegation of additional and more recent NESHAP and NSPS by adopting them by reference.

Sincerely,

Diana Esher, Director
Air Protection Division"

This notice acknowledges the update of Virginia's delegation of authority to implement and enforce NESHAP and NSPS.

Dated: April 18, 2012.

Diana Esher,
Director, Air Protection Division, Region III.

Needs and Uses: On July 28, 2011, in document FCC 11-118, the Commission released a Second Report and Order and

² *Sierra Club v. EPA*, 551 F.3d 1019 (D.C. Cir. 2008).

Order, published at 76 FR 47469, August 5, 2011, and at 76 FR 47476, August 5, 2011, adopting final and interim rules—designed to help prevent fraud and abuse, and ensure quality service, in the provision of Internet-based forms of Telecommunications Relay Services (iTRS). The Second Report and Order and Order amends the Commission's process for certifying Internet-based Telecommunications Relay Service (iTRS) providers as eligible for payment from the Interstate TRS Fund (Fund) for their provision of iTRS, as proposed in the Commission's April 2011 Further Notice of Proposed Rulemaking in the Video Relay Service (VRS) reform proceeding, CG Docket No. 10–51, published at 76 FR 24437, May 2, 2011. The Commission adopted the newly revised certification process to ensure that iTRS providers receiving certification are qualified to provide iTRS in compliance with the Commission's rules, and to eliminate waste, fraud and abuse through improved oversight of such providers.

The Second Report and Order and Order contains information collection requirements with respect to the following eight requirements, all of which aims to ensure that providers are qualified to provide iTRS and that the services are provided in compliance with the Commission's rules with no or minimal service interruption.

(A) Required Evidence for Submission for Eligibility Certification. The Second Report and Order and Order requires that potential iTRS providers must provide full and detailed information in its application for certification that show its ability to comply with the Commission's rules. The Second Report and Order and Order requires that applicants must provide a detailed description of how the applicant will meet all non-waived mandatory minimum standards applicable to each form of TRS offered, including documentary and other evidence, and in the case of VRS, such documentary and other evidence shall demonstrate that the applicant leases, licenses or has acquired its own facilities and operates such facilities associated with TRS call centers and employees communications assistants, on a full or part-time basis, to staff such call centers at the date of the application. Such evidence shall include but not be limited to:

1. For VRS applicants operating five or fewer call centers within the United States, a copy of each deed or lease for each call center operated by the applicant within the United States;

2. For VRS applicants operating more than five call centers within the United States, a copy of each deed or lease for

a representative sampling (taking into account size (by number of communications assistants) and location) of five call centers operated by the applicant within the United States;

3. For VRS applicants operating call centers outside of the United States, a copy of each deed or lease for each call center operated by the Applicant outside of the United States;

4. For all applicants, a list of individuals or entities that hold at least a 10 percent equity interest in the applicant, have the power to vote 10 percent or more of the securities of the applicant, or exercise de jure or de facto control over the applicant, a description of the applicant's organizational structure, and the names of its executives, officers, members of its board of directors, general partners (in the case of a partnership), and managing members (in the case of a limited liability company);

5. For all applicants, a list of the number of applicant's full-time and part-time employees involved in TRS operations, including and divided by the following positions: Executives and officers; video phone installers (in the case of VRS), communications assistants, and persons involved in marketing and sponsorship activities;

6. Where applicable, a description of the call center infrastructure, and for all core call center functions (automatic call distribution, routing, call setup, mapping, call features, billing for compensation from the TRS fund, and registration) a statement whether such equipment is owned, leased or licensed (and from whom if leased or licensed) and proofs of purchase, leases or license agreements, including a complete copy of any lease or license agreement for automatic call distribution;

7. For all applicants, copies of employment agreements for all of the provider's employees directly involved in TRS operations, executives and communications assistants, and a list of names of employees directly involved in TRS operations, need not be submitted with the application, but must be retained by the applicant and submitted to the Commission upon request; and

8. For all applicants, a list of all sponsorship arrangements relating to Internet-based TRS, including any associated written agreements.

(B) Submission of Annual Report. The Second Report and Order and Order requires that providers submit annual reports that include updates to the information listed under Section A above or certify that there are no changes to the information listed under Section A above.

(C) Requiring Providers to Seek Prior Authorization of Voluntary Interruption of Service. The Second Report and Order and Order requires that a VRS provider seeking to voluntarily interrupt service for a period of 30 minutes or more in duration must first obtain Commission authorization by submitting a written request to the Commission's Consumer and Governmental Affairs Bureau (CGB) at least 60 days prior to any planned service interruption, with detailed information of:

(i) Its justification for such interruption;

(ii) Its plan to notify customers about the impending interruption; and

(iii) Its plans for resuming service, so as to minimize the impact of such disruption on consumers through a smooth transition of temporary service to another provider, and restoration of its service at the completion of such interruption.

(D) Reporting of Unforeseen Service Interruptions. With respect to brief, unforeseen service interruptions or in the event of a VRS provider's voluntary service interruption of less than 30 minutes in duration, the Second Report and Order and Order requires that the affected provider submit a written notification to CGB within two business days of the commencement of the service interruption, with an explanation of when and how the provider has restored service or the provider's plan to do so imminently. In the event the provider has not restored service at the time such report is filed, the provider must submit a second report within two business days of the restoration of service with an explanation of when and how the provider has restored service.

(E) Applicant Certifying Under Penalty of Perjury for Certification Application.

The chief executive officer (CEO), chief financial officer (CFO), or other senior executive of an applicant for Internet-based TRS certification with first hand knowledge of the accuracy and completeness of the information provided, when submitting an application for certification for eligibility to receive compensation from the Interstate TRS Fund, must certify under penalty of perjury that all application information required under the Commission's rules and orders has been provided and that all statements of fact, as well as all documentation contained in the application submission, are true, accurate, and complete.

(F) Certified Provider Certifying Under Penalty of Perjury for Annual Compliance Filings.

The Second Report and Order and Order requires the chief executive officer (CEO), chief financial officer (CFO), or other senior executive of an Internet-based TRS provider with first hand knowledge of the accuracy and completeness of the information provided, when submitting an annual compliance report under paragraph (g) of section 64.606 of the Commission's rules, must certify under penalty of perjury that all information required under the Commission's rules and orders has been provided and all statements of fact, as well as all documentation contained in the annual compliance report submission, are true, accurate, and complete.

(G) Notification of Service Cessation.

The Second Report and Order and Order requires the applicant for certification must give its customers at least 30 days notice that it will no longer provide service should the Commission determine that the applicant's certification application does not qualify for certification under paragraph (a)(2) of section 64.606 of the Commission's rules.

(H) Notification on Web site.

The Second Report and Order and Order requires the provider must provide notification of temporary service outages to consumers on an accessible Web site, and the provider must ensure that the information regarding service status is updated on its Web site in a timely manner.

On October 17, 2011, in document FCC 11-155, October 31, 2011, addressing the petition for reconsideration filed by Sorenson Communications, Inc. (Sorenson). Sorenson concurrently filed a PRA comment challenging two aspects of the information collection requirements as being too burdensome. The Commission modified two aspects of information collection requirements contained in the July 28, 2011 Second Report and Order and Order to lessen the burdens on applicants for VRS certification and VRS providers to provide certain documentation to the Commission. In the MO&O, the Commission revised the language in the rules to require that providers that operate five or more domestic call centers only submit copies of proofs of purchase, leases or license agreements for technology and equipment used to support their call center functions for five of their call centers that constitute a representative sample of their centers, rather than requiring copies for all call centers. Further, the Commission clarifies that

the rule requiring submission of a list of all sponsorship arrangements relating to iTRS only requires that a certification applicant include on the list associated written agreements, and does not require the applicant to provide copies of all written agreements.

Therefore, the information collection requirements listed above in section (A) 6 and 8 were revised to read as follows:

6. A description of the technology and equipment used to support their call center functions-including, but not limited to, automatic call distribution, routing, call setup, mapping, call features, billing for compensation from the TRS Fund, and registration-and for each core function of each call center for which the applicant must provide a copy of technology and equipment proofs of purchase, leases or license agreements in accordance with paragraphs (a)-(d) listed below, a statement whether such technology and equipment is owned, leased or licensed (and from whom if leased or licensed);

(a) For VRS providers operating five or fewer call centers within the United States, a copy of each proof of purchase, lease or license agreement for all technology and equipment used to support their call center functions, for each call center operated by the applicant within the United States;

(b) For VRS providers operating more than five call centers within the United States, a copy of each proof of purchase, lease or license agreement for technology and equipment used to support their call center functions for a representative sampling (taking into account size (by number of communications assistants) and location) of five call centers operated by the applicant within the United States; a copy of each proof of purchase, lease or license agreement for technology and equipment used to support their call center functions for all call centers operated by the applicant within the United States must be retained by the applicant for three years from the date of the application, and submitted to the Commission upon request;

(c) For VRS providers operating call centers outside of the United States, a copy of each proof of purchase, lease or license agreement for all technology and equipment used to support their call center functions for each call center operated by the applicant outside of the United States; and

(d) A complete copy of each lease or license agreement for automatic call distribution.

8. For all applicants, a list of all sponsorship arrangements relating to Internet-based TRS, including on that list a description of any associated

written agreements; copies of all such arrangements and agreements must be retained by the applicant for three years from the date of the application, and submitted to the Commission upon request.

Privacy Impact Assessment: No impact(s).

Needs and Uses: TV stations and multichannel video programming distributors (MVPDs) may file financial hardship waiver requests to seek a one-year waiver of the effective date of the rules implementing the CALM Act or to request a one-year renewal of such waiver. A TV station or MVPD must demonstrate in its waiver request that it would be a "financial hardship" to obtain the necessary equipment to comply with the rules. TV stations and MVPDs may file general waiver requests to request waiver of the rules implementing the CALM Act for good cause. The information obtained by financial hardship and general waiver requests will be used by Commission staff to evaluate whether grant of a waiver would be in the public interest.

Needs and Uses: On December 13, 2011, the FCC released a Report & Order (“R&O”), FCC 11–182, adopting rules to implement the Commercial Advertisement Loudness Mitigation (“CALM”) Act. Among other things, the CALM Act directs the Commission to incorporate into its rules by reference and make mandatory a technical standard developed by an industry standard-setting body that is designed to prevent television commercial advertisements from being transmitted at louder volumes than the program material they accompany. Specifically, the CALM Act requires the Commission to incorporate by reference the Advanced Television Systems Committee (“ATSC”) A/85 Recommended Practice (“ATSC A/85 RP”) and make it mandatory “insofar as such recommended practice concerns the transmission of commercial advertisements by a television broadcast station, cable operator, or other multichannel video programming distributor.” As mandated by the statute, the rules will apply to TV broadcasters, cable operators and other multichannel video programming distributors (“MVPDs”). The Commission will use this information to determine compliance with the CALM Act.
