

docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in EPA's electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

B. How and to Whom Do I Submit Comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket,

your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

Dated: August 5, 2005.

Richard B. Ossias,

Acting Associate General Counsel, Air and Radiation Law Office, Office of General Counsel.

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also

includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than September 18, 2005.

A. Federal Reserve Bank of Cleveland (Cindy West, Manager) 1455 East Sixth Street, Cleveland, Ohio 44101-2566:

1. *Rurban Financial Corp.*, Defiance, Ohio; to merge with Exchange Bancshares, Inc., and thereby acquire The Exchange Bank, both of Luckey, Ohio.

Board of Governors of the Federal Reserve System, August 9, 2005.

Robert deV. Frierson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; Comment Request; Field Test of the Discovering the Science of Alcohol Curriculum

Summary: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, regarding the opportunity for public comment on proposed data collection projects, the National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: *Title:* Field Test of the Discovering the Science of Alcohol Curriculum. *Type of Information Collection Request:* New. *Need and Use of Information Collection:* The Discovering the Science of Alcohol curriculum (DSA) was developed with a Phase II SBIR grant to bring accurate, research-based information to high school students in biology and science classrooms. The curriculum includes standards-based content objectives and assessment activities. Curriculum materials include a teacher's guide and website. The field test is necessary to

estimate the DSA curriculum's effectiveness in conveying information to students and teachers. Specifically, the field study is designed to enable NIAAA to determine whether teachers and students who complete the DSA curriculum demonstrate significantly greater knowledge of the topics covered in the curriculum than teachers and students who do not use the DSA curriculum. In addition, the study is designed to enable NIAAA to determine whether the students who are exposed to the curriculum components self-report different beliefs, attitudes, and intentions regarding alcohol use than their counterparts who are not exposed to the curriculum at their schools.

Participating in this field test will be an experimental group of 30 high school biology classrooms with a total of approximately 400 to 500 students and a control group of 30 high school biology classrooms with approximately 400 to 500 students. Teachers and students from grades 9, 10, 11, and 12 will comprise both groups. The field test will include two surveys: (1) An online, computerized survey that measures teachers' knowledge of the DSA curriculum components and teacher satisfaction with the DSA curriculum components. (2) For students, an anonymous, online, computerized survey that measures three factors: (a) student knowledge of the DSA components, (b) student attitudes, beliefs, and intentions, and (c) student satisfaction with the DSA curriculum components. *Frequency of response:* Once per respondent. *Affected Public:* Individuals. *Type of Respondents:* Biology/Science teachers and high school students.

The reporting burden is as follows: *Estimated Number of Respondents:* It is estimated that we will be able to recruit approximately 60 teachers and approximately 1000 students. *Estimated Number of Responses per Respondent:* One response per respondent. *Average Burden Hours per Response:* 15 minutes per individual in the control group and 30 minutes per individual in the experimental group, for a total respondent burden of 662.5 hours. *Estimated Total Annual Burden Hours Requested:* 662.5 hours. *Estimated Costs to Respondents:* Assuming an hourly rate of \$22 for teachers, we estimate the total costs to be \$825. There are no Capital Costs to report. There are no Operating or Maintenance costs to report.

Request for Comments: Written comments and suggestions from the public and affected agencies are invited on the following points: (1) Whether the data collection is necessary for the

proper performance of the function of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

For further information contact: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Jason Lazarow, M.Ed., NIH/NIAAA/ORTC/HSEB, 5635 Fishers Lane, Room 3101, MSC 9304, Bethesda, MD 20892-9304, or e-mail your request to: jlazarow@mail.nih.gov. Mr. Lazarow can be contacted by telephone at 301-435-8043.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Dated: August 8, 2005.

Stephen Long,

Executive Officer, NIAAA.
