II. SSA submitted the information collections below to OMB for clearance. Your comments regarding the information collections would be most useful if OMB and SSA receive them 30 days from the date of this publication. To be sure we consider your comments, we must receive them no later than June 23, 2014. Individuals can obtain copies of the OMB clearance packages by writing to *OR.Reports.Clearance@ssa.gov*.

1. Disability Update Report—20 CFR 404.1589–404.1595 and 416.988–416.996—0960–0511. As part of our statutory requirements, SSA periodically uses Form SSA-455, the

Disability Update Report, to evaluate current Title II disability beneficiaries' and Title XVI disability payment recipients' continued eligibility for Social Security disability payments. Specifically, SSA uses the form to determine if: (1) There is enough evidence to warrant referring the respondent for a full medical Continuing Disability Review (CDR); (2) the respondent's impairment(s) is still present and is indicative of no medical improvement, precluding the need for a CDR; or (3) there are unresolved work-related issues for the respondent. SSA mails Form SSA-455 to specific disability recipients, whom we select as

possibly qualifying for the continuing disability review process. SSA pre-fills the form with data specific to the disability recipient, except for the sections we ask the beneficiary to complete. When SSA receives the completed form, we scan it into SSA's system. This allows us to gather the information electronically to enable SSA to process the returned forms through automated decision logic to decide the proper course of action to take. The respondents are recipients of Title II and Title XVI Social Security disability payments.

*Type of Request:* Revision of an OMB-approved information collection.

2. Request for Evidence from Doctor and Request for Evidence from Hospital—20 CFR 404 Subpart P and 20 CFR 416 Subpart I—0960–0722. Sections 223(d)(5) and 1614(a)(3)(H)(i) of the Social Security Act require claimants to furnish medical evidence of their disability when filing a disability claim. SSA uses Forms HA-66 and HA-67 to obtain evidence from medical sources identified by the

claimants as having information relative to their impairments or ability to do work-related activities. In addition to accepting manual paper responses, SSA sends a barcode with the HA-66 and HA-67, allowing respondents to fax the information directly into the electronic claims folder rather than submitting it manually. SSA uses the information to determine eligibility for benefits. The respondents are medical sources,

doctors, and hospitals that evaluate the claimants. *Type of Request:* Extension of an OMB-approved information collection.

**Note:** This is a correction notice. When we published the 60-day Notice for this collection on 3/3/14 at 79 FR 11852 we listed it as a revision; however, this is an extension of a currently approved information collection.
