SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0126.

Title: Section 73.1820, Station Log.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, and not-for-profit institutions.

Number of Respondents: 15,122.

Estimated Time Per Response: 0.17 hours to 0.5 hours.

Recordkeeping requirement.

Total Annual Burden: 15,326 hours.

Total Annual Cost: N/A.

Needs and Uses: Section 73.1820 requires that each licensee of an AM, FM or TV broadcast station maintain a station log. Each entry must accurately reflect the station's operation. This log should reflect adjustments to operating parameters for AM stations with directional antennas without an approved sampling system; for all stations the actual time of any observation of extinguishment or improper operation of tower lights; and entry of each test of the Emergency Alert System (EAS) for commercial stations. The data is used by FCC staff in field investigations to assure that the licensee is operating in accordance with the technical requirements as specified in the FCC Rules and with the station authorization, and is taking reasonable measures to preclude interference to other stations. It is also used to verify that the EAS is operating properly.

OMB Control No.: 3060-0641.

Title: Notification to File Progress Report.

Number of Respondents: 500.

Estimated Time Per Response: 1 hour.

From this data, the Commission is able to confirm that the licensee has provided a showing of "substantial service" to the population or land area within 10 years of the

license grant pursuant to 47 CFR 95.833. The data collected ensure licensees are making proper use of the spectrum.

OMB Control No.: 3060-0714.

Title: Antenna Registration Number Required as Supplement to Application Forms.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, state, local and tribal government, and federal government.

Estimated Time Per Response: .084 hours (or five minutes).

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 43,344 hours.

Total Annual Cost: N/A.

Needs and Uses: In July 1996, the antenna clearance procedures were replaced with a uniform registration procedure that applied to antenna structure owners. Structure owners receive an Antenna Structure Registration Number which is a unique number that identifies an antenna structure. Once obtained, this number must be used on all filings related to the antenna structure. Collecting the registration number enables the Commission to efficiently maintain a registration database, as well as process the applications without unnecessary delay related to antenna structure discrepancies. By entering the registration number in the database, the antenna clearance can immediately be validated for accuracy through the Universal Licensing System (ULS).

Description: In a Report and Order issued in CC Docket No. 01-150, released March 21, 2002, the Commission provides presumptive streamlining categories, allows for joint applications for international and domestic transfers of control, clarifies confusion about content of applications, provides timelines for streamlined transaction review, provides a pro forma transaction process, allows asset

acquisitions to be treated as transfers of control and deletes obsolete sections of its rules. The Report and Order sets forth the procedures for common carriers requiring authorization under section 214 of the Communications Act of 1934, as amended to acquire domestic interstate transmission lines through a transfer of control. Under section 214 of the Act, carriers must obtain the Commission approval before constructing, acquiring or operating an interstate transmission lines.

Acquisitions involving interstate common carriers therefore require affirmative action by the Commission before the acquisition can occur.

Pursuant to 47 CFR sections 63.03 and 63.04, domestic section 214 applications involving domestic transfers of control, at a minimum should specify: (1) The name, address and telephone number of each applicant; (2) the government, state, or territory under the laws of which each corporate or partnership applicant is organized; (3) the name, title, post office address, and telephone number of the officer or contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed; (4) the name, address, citizenship and principal business of any person or entity that directly or indirectly owns at least ten percent of the equity of the applicant, and the percentage of equity owned by each of those entities (to the nearest one percent); (5) certification pursuant to 47 CFR sections 1.2001 through 1.2003 that no party to the application is subject to a denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988; (6) a description of the transaction; (7) a description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area; (8) a statement as to how the application fits into one or more of the presumptive streamlined categories in section 63.03 or why it is otherwise appropriate for streamlined treatment; (9) identification of all other Commission applications related to the same transaction; (10) a statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure; (11) identification of any separately filed waiver requests being sought in conjunction with the transaction; and (12) a statement showing how grant of the application will serve the public interest, convenience and necessity, including any additional information

that may be necessary to show the effect of the proposed transaction on competition in domestic markets. Where an applicant wishes to file a joint international section 214 transfer of control application and domestic section 214 transfer of control application, the applicant must submit information that satisfies the requirements of 47 CFR 63.18. In the attachment to the international application, the applicant must submit the information described in 47 CFR 63.04(a)(6)-(a)(12). *See* 47 CFR 63.03 and 63.04. No. of respondents: 25; hours per response: 65 hours; total annual burden: 1625 hours). Pursuant to 47 CFR 63.03(d), applicants are not required to file post-consummation notices of pro forma transactions, except that a post transaction notice must be filed with the Commission within 30 days of a pro forma transfer to a trustee or a debtor-in-possession. The notification can be in the form of a letter (in duplicate to the Secretary). The letter or other form of notification must also contain the information listed in sections (a)(1) through (a)(4) in section 63.04.
