

provide their individual views on, whether impacts of climate change are anticipated to be negative, neutral, or positive on HMS species. The intent of the workshop is to increase transparency in the process of determining final scores. NMFS will generate preliminary scores indicating overall expected vulnerability of HMS to climate change at the end of the workshop; this will be based on consideration of the panelists' individual scores and other information and analyses. Panelists will be provided additional opportunities after the workshop to finalize their individual scores. NMFS will take these individual scores and other information and analyses into consideration when the agency develops final vulnerability rankings. Under the Magnuson-Stevens Act, NMFS is required to use the best scientific information available for fishery management per National Standard 2, 16 U.S.C. 1851(a)(2). NMFS will make the final results of the HMS CVA available to the public through a variety of outreach mechanisms including the NOAA CVA website (<https://www.fisheries.noaa.gov/national/climate/climate-vulnerability-assessments>), manuscripts, web stories, and other tools.

This workshop will include both large group discussion of relevant information and breakout groups to provide panelists the opportunity to focus on species-specific discussions. Additional information on the meeting and a copy of the draft agenda will be posted prior to the meeting (see **ADDRESSES**).

Ground rules for the workshop will be strictly enforced through the workshop and will be made available with webinar access information (see **ADDRESSES**). Members of the public are invited to observe the workshop in person or virtually, and will be provided limited opportunities to present information to a panel of scientific experts to assist in their evaluation of species' sensitivity to climate change. The workshop location will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Jennifer Cudney or Tyler Loughran at 301-427-8503, at least 7 days prior to the meeting. Members of the public accessing the webinar are strongly encouraged to log/dial in 15 minutes prior to the meeting in case of technical issues. Members of the public observing the workshop via webinar are invited to observe both large group and breakout discussions, and should be prepared to

indicate breakout group preferences at appropriate times.

Dated: May 3, 2023.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC984]

Fisheries of the South Atlantic; National Marine Fisheries Service— Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The National Marine Fisheries Service will hold a virtual Dolphin (*i.e.*, Dolphinfish or Mahi mahi) Management Strategy Stakeholder workshop on May 30, 2023.

DATES: The workshop will be held on Tuesday, May 30, 2023, from 5:30 p.m. until 8:30 p.m. EDT.

ADDRESSES: *Meeting address:* The meeting is open to members of the public. The workshop is accessible online via Google Meet at: <https://meet.google.com/viu-ajte-yux> [or dial: (US) +1 904-323-4293; PIN: 490 150 382#]. Those interested in participating should contact Cassidy Peterson (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Cassidy Peterson, Management Strategy Evaluation Specialist, NMFS Southeast Fisheries Science Center, phone (910) 708-2686; email: Cassidy.Peterson@noaa.gov.

SUPPLEMENTARY INFORMATION: In collaboration with the South Atlantic Fishery Management Council, NMFS is embarking on a Management Strategy Evaluation (MSE) to guide dolphin (*i.e.*, dolphinfish or mahi mahi) management in the jurisdiction. The MSE will be used to develop a management procedure that best achieves the suite of management objectives for the U.S. Atlantic dolphin fishery. Stakeholder input is necessary for characterizing the management objectives of the fishery and stock, identifying any uncertainties in the system that should be built into the MSE analysis, and providing guidance on the acceptability of the proposed management procedures.

Agenda items for the meeting include: developing an understanding of management procedures and management strategy evaluation, developing conceptual management objectives, and clarifying uncertainties that should be addressed within the framework.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to Cassidy Peterson (see **FOR FURTHER INFORMATION CONTACT**) 7 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 3, 2023.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

COMMISSION OF FINE ARTS

Notice of Meeting

Per 45 CFR chapter XXI 2102.3, the next meeting of the U.S. Commission of Fine Arts is scheduled for May 18, 2023, at 9:00 a.m. and will be held via online videoconference. Items of discussion may include buildings, infrastructure, parks, memorials, and public art.

Draft agendas, the link to register for the online public meeting, and additional information regarding the Commission are available on our website: www.cfa.gov. Inquiries regarding the agenda, as well as any public testimony, should be addressed to Thomas Luebke, Secretary, U.S. Commission of Fine Arts, at the above address; by emailing cfastaff@cfa.gov; or by calling 202-504-2200. Individuals requiring sign language interpretation for the hearing impaired should contact the Secretary at least 10 days before the meeting date.

Dated April 28, 2023 in Washington, DC.

Susan M. Raposa,

Technical Information Specialist.
