SUPPLEMENTARY INFORMATION:**I. Background**

On April 13, 2021, the State of North Carolina submitted changes to the North Carolina SIP for EPA's approval.¹ Specifically, EPA is proposing to approve changes to the North Carolina SIP related to 15A North Carolina Administrative Code (NCAC) Subchapter 02D, Rule .0615, *Delegation*.² The April 13, 2021, SIP revision seeks to remove the aforementioned regulation from the SIP because the regulation is unnecessary and has been repealed at the state level.

II. Analysis of the State's Submittal

The April 13, 2021, SIP revision seeks to remove 15 NCAC 02D, Rule .0615—*Delegation*, from the North Carolina SIP. Rule .0615 provides that the Director of the DAQ has the authority to delegate his or her administrative and approval functions under Section 02D .0600, *Monitoring; Recordkeeping; Reporting*, to other officials in the Division. North Carolina states in its April 13, 2021, submittal that this rule is unnecessary and was repealed at the state level. EPA is proposing to approve the removal of Rule .0615 from the SIP for these reasons and because removal will not impact emissions or interfere with attainment and maintenance of the NAAQS or any other applicable requirement of the Act.

III. Incorporation by Reference

In this document, EPA is proposing to include in a final EPA rule amended regulatory text that includes incorporation by reference. EPA is proposing to remove 15A NCAC 02D, Rule .0615—*Delegation*, state effective on November 1, 2020, from the North Carolina State Implementation Plan, which is incorporated by reference in accordance with the requirements of 1

¹ EPA received the submittal on April 14, 2021, and for clarity, refers to the submission per its "letter date" of April 13, 2021, throughout this notice.

² EPA notes that the Agency received several revisions to the North Carolina SIP that were transmitted with the same April 13, 2021, cover letter. EPA will be considering action for these other SIP revisions in separate rulemakings.

CFR part 51. EPA has made, and will continue to make, the State Implementation Plan generally available at the EPA Region 4 Office (please contact the person identified in the “For Further Information Contact” section of this preamble for more information).

IV. Proposed Action

EPA is proposing to approve changes to the North Carolina SIP. Specifically, for the reasons described above, EPA is proposing to approve the removal of 15 NCAC 02D, Rule .0615—*Delegation*, from the North Carolina SIP.

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. *See* 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. This action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994). The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

SUPPLEMENTARY INFORMATION: In the “Rules and Regulations” section of this issue of the **Federal Register**, the EPA is approving updates to the Code of Federal Regulations delegation tables to reflect the current delegation status of New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants in Arizona and California. We are approving these updates in a direct final action without prior proposal because we believe this action is not controversial. A detailed rationale for the approval is set forth in the direct final rule. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in a subsequent final rule based on this proposed rule. Please note that if the EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is
