

Thicket National Preserve, 3785 Milam Street, Beaumont, Texas 77701.

FOR FURTHER INFORMATION CONTACT: Mr. Dusty Pate, Range Technician, Big Thicket National Preserve, 3785 Milam Street, Beaumont, Texas 77701, Telephone: 409 839-2689 ext. 232, e-mail at Haigler_Pate@nps.gov.

SUPPLEMENTARY INFORMATION: If you wish to submit comments on these documents within the 30 days; mail them to the street address provided above, hand-deliver them to the park at the street address provided above, or electronically file them to the e-mail address provided above. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials or organizations or businesses, available for public inspection in their entirety.

Dated: October 25, 2004.

John T. Crowley,

Acting Regional Director, Intermountain Region, National Park Service.

Draft General Management Plan and Environmental Impact Statement for the First Ladies National Historic Site, Ohio

AGENCY: National Park Service.

ACTION: Notice of availability of the draft general management plan and draft environmental impact statement for the First Ladies' National Historic Site, Ohio.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the draft general management plan and environmental impact statement (GMP/EIS) for the First Ladies' National Historic Site (FILA).

DATES: The draft GMP/EIS will remain available for public review for 60 days following the publishing of the notice of availability in the **Federal Register** by the Environmental Protection Agency. Public meetings will be announced in the local media.

ADDRESSES: Copies of the GMP/EIS are available by request by writing to the First Ladies National Historic Site, c/o Site Manager, 8095 Mentor Avenue, Mentor, Ohio 44060, by telephoning 440-974-2993 or by e-mail to carol_j_spears@nps.gov. The document is also available to be picked up in person at the First Ladies National Historic Site, 331 Market Avenue South, Canton, Ohio 44702. The document can be found on the Internet in the NPS Planning Web site at: <http://planning.nps.gov/plans.cfm>.

FOR FURTHER INFORMATION CONTACT: Ms. Carol J. Spears, Site Manager, 8095 Mentor Avenue, Mentor, Ohio 44060, telephone 440-974-2993, or Sharon Miles, Job Captain, Midwest Regional Office, 601 Riverfront Drive, Omaha, NE 68102-4226, telephone 402-661-1850.

SUPPLEMENTARY INFORMATION: The FILA is owned by the NPS and operated by the National First Ladies' Library. The park encompasses the Ida Saxton McKinley House. The Education and Resource Center (formerly the City National Bank Building) is owned and operated by the National First Ladies' Library, and is part of the visitor experience at the park. The park was established to preserve and interpret the role and history of FILA.

The purpose of the general management plan is to set forth the basic management philosophy for the park and to provide strategies for addressing issues and achieving identified management objectives. The GMP/EIS describes and analyzes the environmental impacts of the proposed action and two other action alternatives for the future management direction of the park. A no-action alternative is also evaluated.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There may also be circumstances where we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from

organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: November 4, 2004.

Ernest Quintana,

Regional Director, Midwest Region.

BILLING CODE 4312-86-P

DEPARTMENT OF THE INTERIOR

National Park Service

AGENCY: National Park Service.

ACTION: Notice of availability of the draft wilderness and backcountry management plan/draft environmental impact statement, Isle Royale National Park, Michigan.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of a draft wilderness and backcountry management plan/environmental impact statement (WBMP EIS) for Isle Royale National Park (ISRO), Michigan.

DATES: There will be a 60-day public review period for comments on this document. Comments on the draft WBMP EIS must be received no later than 60 days after the Environmental Protection Agency publishes its notice of availability in the **Federal Register**.

ADDRESSES: Copies of the draft WBMP EIS or a summary document are available by request by writing to Phyllis Green, Superintendent, Attn: WBMP, Isle Royale National Park, 800 East Lakeshore Drive, Houghton, Michigan 49931, or by e-mail message at isro_wbmp@nps.gov. The document can be picked up at the park's headquarters at the same address, or viewed over the Internet at the park's Web site at <http://www.nps.gov/isro/home.htm>. Copies of the draft or summary document will be sent to over 500 interested parties, as well as to public libraries throughout Michigan, Minnesota, and Wisconsin.

FOR FURTHER INFORMATION CONTACT: Jean Battle, Chief of Resource Management, Isle Royale National Park, 800 East Lakeshore Drive, Houghton, Michigan 49931, 906-487-9080 extension 34 or jean_battle@nps.gov.

SUPPLEMENTARY INFORMATION: The NPS management policies require the superintendent of each park containing wilderness resources will develop and maintain a wilderness management plan to guide the preservation, management, and use of these resources. The ISRO's

wilderness was designated in 1976, and the park does not have an approved wilderness management plan. The purpose of this draft WBMP EIS is to satisfy that requirement and bring ISRO into compliance with NPS policies. This draft WBMP EIS does not propose any changes in wilderness boundaries within ISRO, but it does propose formalizing and implementing some changes in how that wilderness is managed. The draft plan proposes several alternatives for management actions that would achieve the goals of wilderness management in the park consistent with The Wilderness Act and NPS policies. The primary issues being addressed in the plan that may result in management changes include: managing permitting for overnight camping and boating in the park, managing organized day tours in the park, managing campfires, the maintenance or removal of fire towers, the maintenance or removal of picnic tables in wilderness campgrounds, the use of treated lumber for trail maintenance, and the application of the minimum tool decision tree to determining the appropriate tools for maintenance, research, and other management practices within the park's wilderness.

Persons wishing to comment may do so by any one of several methods. They may mail comments to the Superintendent, Attn: WBMP, Isle Royale National Park, 800 East Lakeshore Drive, Houghton, Michigan 49931, or call the Chief of Resource Management at 906-487-9080 extension 34. They may comment via e-mail to isro_wbmp@nps.gov (include name and return address in the e-mail message). Finally, they may hand-deliver comments to park headquarters at 800 East Lakeshore Drive, Houghton, Michigan.

The NPS practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments.

We will make all submissions from organizations or businesses, and from individuals identify themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: November 5, 2004.

DEPARTMENT OF THE INTERIOR

National Park Service

Final Environmental Impact Statement/ Fire Management Plan Point Reyes National Seashore Marin County, CA; Notice of Approval of Record of Decision

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91-190, as amended) and the implementing regulations promulgated by the Council on Environmental Quality (40 CFR 1505.2), the Department of the Interior, National Park Service has prepared, and the Regional Director, Pacific West Region has approved, the Record of Decision for the updated Fire Management Plan for Point Reyes National Seashore. The formal no-action period was officially initiated September 10, 2004, with the U.S. Environmental Protection Agency's **Federal Register** notification of the filing of the Final Environmental Impact Statement (EIS).

Decision: As soon as practicable the park will begin to implement as its updated Fire Management Plan the "Increase Natural Resource Enhancement and Expand Hazardous Fuel Reduction" alternative contained in the Draft and Final EIS (also described and analyzed as the Alternative C). The selected plan features a long-term, coordinated strategy to restore native plant cover, reduce infestations of invasive non-native plants, increase abundance of federally listed species, and protect or enhance cultural resources and historic scenes. Use of prescribed fire or mechanical treatments on up to 3,500 acres could be undertaken, so as to protect high priority areas having hazardous fuels (any actions deemed essential to occur within Wilderness would be executed only after first determining the "minimum tool" appropriate to accomplish the necessary work). As documented through the EIS process, this plan was also deemed to be the "environmentally preferred" alternative.

This course of action and two alternatives were identified and analyzed in the Final EIS, and previously in the Draft EIS (the latter was distributed in spring, 2004). The full spectrum of foreseeable

environmental consequences was assessed, and appropriate mitigation measures identified, for each alternative. Beginning with early scoping, through the preparation of the Draft and Final EIS, several public meetings and numerous interagency reviews were conducted, and newsletter updates were regularly provided (only seven written comments responding to the Draft EIS were received, with minor points raised). Key consultations which aided in preparing the Draft and Final EIS involved (but were not limited to) the U.S. Fish and Wildlife Service, National Marine Fisheries Service, California Department of Fish and Game, State Historic Preservation Office, native American Tribes, regional air quality management districts, and adjoining land managing agencies. Local communities, county and city officials, and interested organizations were contacted extensively during initial scoping and throughout the fire planning process.

Copies: Interested parties desiring to review the Record of Decision may obtain a complete copy by contacting the Superintendent, Point Reyes National Seashore, Point Reyes, CA 94956; or via telephone request at (415) 464-5100.

Dated: October 29, 2004.

Jonathan B. Jarvis,

Regional Director, Pacific West Region.
