II. Discussion

On November 13, 2020, the NRC issued for public comment the draft EIS for the UNC license amendment to excavate approximately 1 million CY of mine waste from the Northeast Church Rock Mine Site and dispose of it at the

existing mill site in McKinley County, New Mexico.

The draft EIS for UNC’s license amendment application includes the NRC staff’s preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. After comparing the impacts of the proposed action to reasonable alternatives and the no-action alternative, the NRC staff, in accordance with the requirements in part 51 of title 10 of the *Code of Federal Regulations*, “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions” preliminarily recommends the proposed action, which would authorize UNC to transfer and dispose Northeast Church Rock mine waste on top of the UNC tailings impoundment. This recommendation is based on (i) the license application request, which includes UNC’s Environmental Report and supplemental documents, as well as UNC’s responses to the NRC staff’s requests for additional information; (ii) consultation with Federal, State, Tribal, and local agencies and input from other stakeholders; and (iii) independent NRC staff review as documented in the assessments summarized in this EIS.

The public comment period was originally scheduled to close on December 28, 2020 (85 FR 72706). The NRC published a second notice on December 23, 2020 (85 FR 84016), that extended the closing date for the public comment period to February 26, 2021. On February 5, 2021, NRC published a third notice that extended the public comment until May 27, 2021 (86 FR 8386). The NRC received a request from the President of the Navajo Nation (ADAMS Accession No. ML21152A051) to extend the comment period through October 31, 2021. After considering this request, the NRC has decided to re-open the comment period to allow more time for members of the public to develop and submit their comments on the draft EIS. Comments should be submitted by October 31, 2021, to ensure consideration. Comments of Federal, State, and local agencies, Indian Tribes or other interested persons will be made available for public inspection when received.

The NRC is planning to hold at least one additional meeting during the extended comment period. Stakeholders should monitor the NRC’s public meeting website for information about future public meetings at: <https://www.nrc.gov/public-involve/public-meetings.html>.

Dated: June 14, 2021.
