Background

The FHWA, in cooperation with the Iowa Department of Transportation (Iowa DOT) and Nebraska Department of Roads (NDOR), are rescinding the notice of intent to prepare an EIS for improvements proposed to U.S. 34, from Interstate 29 in Mills County, IA, to U.S. 75 in Cass or Sarpy county in Nebraska.

On Sept. 12, 1994, FHWA issued a NOI to prepare an EIS as part of the development process for the replacement of the U.S. 34 bridge over the Missouri River.

In January 1996, a draft EIS was released evaluating the replacement of the U.S. 34 bridge over the Missouri River at the city of Plattsmouth in Cass County, NE.

A multi-step screening process, which included public information meetings and a public hearing, was used to develop and evaluate two alignment alternatives. One alignment was located near the city of Bellevue in Sarpy County, NE, and the other near the city of Plattsmouth in Cass County, NE.

Comments received during and subsequent to the public hearing on the draft EIS determined that consensus could not be reached for identifying a preferred alignment for the final EIS. Consequently, no final EIS will be prepared.

Recently, the Iowa DOT and NDOR agreed to jointly pursue the development of two bridges across the Missouri River, one near Bellevue, NE, and a second near Plattsmouth, NE. As part of this agreement, two environmental impact statements will be prepared, one for each bridge.

The Bellevue bridge replacement study and Plattsmouth bridge replacement study will be the subjects of two separate notices of intent, published subsequent to this notice. Comments or questions concerning the decision to not prepare a Final EIS should be directed to the Iowa Department of Transportation or FHWA at the address provided in the caption **FOR FURTHER INFORMATION CONTACT.**
