SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-45119; File No. SR-ISE-2001-33]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the International Securities Exchange LLC To Amend the Original Criteria for Underlying Securities Contained in ISE Rule 502

November 30, 2001.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 19, 2001, the International Securities Exchange LLC ("ISE" or "Exchange") filed with the Securities and Exchange

Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Currently, paragraph (b)(5) of ISE Rule 502, "Criteria for Underlying Securities," provides that the market price per share of a security underlying an option must have been at least \$7.50 for the majority of business days during the three calendar months preceding the date of the selection, as measured by the lowest closing price reported in any market in which the underlying security traded on each of the subject days. The ISE proposes to amend ISE Rule 502(b)(5) to provide an alternative listing requirement for underlying securities that satisfy all of the initial listing requirements in ISE Rule 502 other than the \$7.50 per share requirement. Specifically, the ISE proposes to amend ISE Rule 502(b)(5) to permit the ISE to list options on securities that satisfy all of the initial listing requirements other than the \$7.50 per share requirement so long as: (1) The underlying security meets the guidelines for continued approval in ISE Rule 503, "Withdrawal of Approval of Underlying Securities;" (2) options on such underlying security are traded on at least one other registered national securities exchange; and (3) the average daily volume for such options over the last three calendar months preceding the date of selection has been at least 5,000 contracts.

The text of the proposed rule change appears below. New text is in *italics*.

Rule 502. Criteria for Underlying Securities

* * * * *

(b) In addition, the Exchange shall from time to time establish guidelines to be considered in evaluating potential underlying securities for Exchange options transactions. There are many relevant factors which must be considered in arriving at such a determination, and the fact that a particular security may meet the guidelines established by the Exchange does not necessarily mean that it will be selected as an underlying security. Further, in exceptional circumstances an underlying security may be selected by the Exchange even though it does not meet all of the guidelines. The Exchange may also give consideration to

maintaining diversity among various industries and issuers in selecting underlying securities. Notwithstanding the forgoing, however, absent exceptional circumstances, an underlying security will not be selected unless:

* * * * *

(b) *Either:*

(i) The market price per share of the underlying security has been at least \$7.50 for the majority of business days during the three calendar months preceding the date of selection, as measured by the lowest closing price reported in any market in which the underlying security traded on each of the subject days; or

(ii) *The underlying security meets the guidelines for continued approval in Rule 503; options on such underlying security are traded on at least one other registered national securities exchange; and the average daily volume for such options over the last three calendar months preceding the date of selection has been at least 5,000 contracts.*

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) Purpose

ISE Rule 502 contains the criteria that an underlying security must meet before the Exchange may initially list options on that security. The ISE states that these criteria are uniform among the five options exchanges. The ISE notes that after an exchange lists options on an underlying security, the underlying security must continue to meet another set of uniform, but somewhat less stringent, requirements for the exchange to list additional series of options on the security (the "continued listing requirements").

The ISE believes that although the continued listing requirements are uniform among the five options exchanges, the application of these
