

the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>) using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" (i.e., CP04-34) and follow the instructions. Searches may also be done using the phase "Line 1278 Replacement" in the "Text Search" field. For assistance with eLibrary, the eLibrary helpline can be reached at 1-866-208-3676, TTY (202) 502-8659 or at ferconlinesupport@ferc.gov. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

PPL Maine, LLC; Bangor-Pacific Hydro Associates; Notice of Availability of Final Environmental Assessment

April 18, 2005.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR part 380 [FERC Order No. 486, 52 FR 47897]), the Office of Energy Projects staff (staff) reviewed the applications for amendment of licenses for the Veazie Project, which is located on the Penobscot River in Penobscot County, Maine; the Milford Project, which is located on the Penobscot River and Stillwater Branch in Penobscot County, Maine; the West Enfield Project which is located on the Penobscot River in Penobscot County, Maine; the Stillwater Project, which is located on the Stillwater Branch in Penobscot County, Maine; and the Medway Project, which is located on the West Branch Penobscot River in Penobscot County, Maine, and prepared a final environmental assessment (FEA) for the projects. In this FEA, staff analyzes the potential environmental effects of the proposed license amendments and concludes that the amendments would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the FEA is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number (p-2403) in the docket number field to access the document. For assistance, call (202) 502-8222 or (202) 502-8659 (for TTY).

[Docket Nos. CP04-395-000 and CP04-405-000]

Vista del Sol LNG Terminal LP, Vista del Sol Pipeline LP; Notice of Availability of the Final Environmental Impact Statement for the Proposed Vista del Sol LNG Terminal Project

April 15, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final Environmental Impact Statement (EIS) for the construction and operation of a liquefied natural gas (LNG) import terminal and natural gas pipeline facilities proposed by Vista del Sol LNG Terminal LP and Vista del Sol Pipeline LP (collectively referred to as Vista del Sol) in the above-referenced dockets.

The final EIS was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The staff concludes that approval of the proposed project with appropriate mitigating measures as recommended, would have limited adverse environmental impact. The final EIS also evaluates alternatives to the proposal, including system alternatives, alternative sites for the LNG import terminal, and pipeline alternatives.

Vista del Sol's proposed facilities would transport up to 1.4 billion cubic feet per day (Bcfd) of imported natural gas to the United States market. In order to provide LNG import, storage, and pipeline transportation services, Vista del Sol requests Commission authorization to construct, install, and operate an LNG terminal and natural gas pipeline facilities.

The final EIS addresses the potential environmental effects of the construction and operation of the following LNG terminal and natural gas pipeline facilities:

- A ship unloading facility with berthing capabilities for one LNG ship with cargo capacities of up to 250,000 cubic meters (m³);
- Three 155,000 m³ full containment LNG storage tanks;
- Vaporization equipment capable of an average sendout capacity of 1.1 Bcfd and a maximum sendout capacity of 1.4 Bcfd;
- Ancillary utilities, buildings, and service facilities;
- One 25.3 mile-long, 36-inch-diameter natural gas sendout pipeline; and
- Associated pipeline support facilities, including six meter stations at

¹ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.
