SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On April 5, 2002, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued Order No. EA-257 authorizing EES to transmit electric energy from the United States to Canada as a power marketer using certain international electric transmission facilities. That two-year authorization expires on April 5, 2004.

On January 30, 2004, EES applied to the Department of Energy (DOE) to renew its authority to export electric energy from the United States to Canada. EES, a Delaware corporation with its principal place of business in Bangor, Maine, is a wholly-owned indirect subsidiary of Emera Incorporated, a Nova Scotia corporation that is a diversified energy and services company. EES does not own or control any electric generation or transmission facilities nor does it have a franchised service area. Emera Incorporated owns and operates transmission facilities in the United States through its operating divisions. EES will engaged in the marketing of power as both a broker and as a marketer of electric power at wholesale. EES plans to purchase the power that it will sell from cogeneration facilities, federal power marketing agencies, electric utilities and exempt wholesale generators within the United States.

In FE Docket No. EA-257-A, EES proposes to export electric energy to Canada and to arrange for the delivery of those exports to Canada over the international transmission facilities owned by Vermont Electric Power Company, Inc., Eastern Maine Electric Cooperative, Joint Owners of the Highgate Project, Maine Electric Power Company, Maine Public Service Company, and Vermont Electric Transmission Company.

The construction of each of the international transmission facilities to be utilized by EES has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Brentani, Wright & Talisman, P.C., 1200 G Street, NW., Suite 600, Washington, DC 20005 and Mr. Richard J. Smith, Secretary and General Counsel, Emera Incorporated, 1894 Barrington Street, 18th Floor, Barrington Tower, P.O. Box 910, Halifax, Nova Scotia, Canada B3J 2W5.

A final decision will be made on this application after the environmental impact has been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>.
